### We make it easy-

Our highly experienced team of finance professionals operates in a work culture that emphasizes the importance of providing outstanding customer service. Our systems, processes and flexible policies support our goal of providing customers with a positive experience.

### The finance process:

- Tell your Lenovo sales representative or your technology provider you may be interested in a financing solution.
- The sales rep can calculate and explain your estimated monthly payment for different lease structures and contract lengths for the acquisition you are considering.
- The sales rep submits your credit application to us.
- If approved, we may offer you a higher credit line than requested should you decide to leverage financing to acquire a larger solution.
- If you agree to the finance solution, you sign and return the financing documentation.
- The financed assets are installed and you verify delivery and installation.
- Your financing agreement commences.

### Service when you need it-

We differ from others by allowing you full, easy access to information you need to understand and manage your financed assets. Throughout the life of the transaction, you will have electronic access to your lease documents, payment histories and asset information. All of that information and more is available 24/7 through our customer service web portal- [customerfinancing.com](http://customerfinancing.com).

### Major services for major accounts-

Those customers who do large transactions (i.e., hundreds or thousands of assets) will benefit from our Premier Client Services. Each of these large accounts is assigned a servicing representative as a single point of contact for the lifetime of the relationship.
