Why Lenovo?

The Lenovo server portfolio includes data warehouse appliances that integrate database, server and storage into a single, easy-to-manage appliance that requires minimal setup and ongoing administration, and provides fast and consistent analytic performance. Lenovo also offers pre-built and pre-integrated workload-optimized data warehousing and analytic platforms and data warehouse software for operational intelligence. These offerings are enhanced with additional support for big data and new types of analytic workloads, including continuous and fast analysis of massive volumes of data-in-motion.
