Explanatory sheet about safety of product for transportation
(Safety data sheet for transportation)

1. Basic item

Product name: Lithium ion battery (“Lithium ion battery” includes lithium ion polymer battery in this document)  
UN number: 3480  
Product Part Number: Refer to Table 1.  
Manufacturer: LG Chemical, Ltd.  
Address: LG Twin Towers, 128 Yeoui-daero, Yeongdeungpo-gu Seoul 07336, Korea  
Phone number: +82-2-3773-1114

2. Product information

Basic composition of the product
This product is a battery which consists of such main component as core battery pack assembled with some Lithium ion cells. And it consists of any combination of plastic casing, tube casing, protection circuit boards, safety devices and interface terminals.

3. Safety information

- LG Chemical certifies the battery has passed and satisfied the UN Manual of Tests and Criteria Part III, sub-section 38.3 testing in LG Chemical Shipping.  
- LG Chemical manufactured the battery under the quality management program required in UN model regulations 2.9.4(e).

3-1) Component cell
The Watt-hour rating of the component Lithium ion cells is not more than 20Wh.

3-2) Battery pack
1. The Watt-hour rating of the battery is not more than 100Wh.  
2. Package of the battery satisfies the following conditions when LG Chemical ships.  
   (1) The product name “Lithium ion batteries” and how to deal with the damage of the package are written on the label.  
   (2) The package has passed the drop test from the height of 1.2m.  
   (3) The package net weight is not more than 10kg.  
3. The battery is not defective for safety reasons, not damaged. It is not collected battery for recycling or disposal.  
4. The battery is not subject to the fully regulated requirements for Dangerous Goods in ocean and ground transportation.  
5. The battery should be transported by Cargo aircraft as UN3480, class 9 Dangerous Goods, and state of charge not exceeding 30%, attached by required marks and labels, according to Packing Instruction 965 Section IB of the ICAO and IATA regulations.

Product Name: Lithium Ion Rechargeable Battery

Product Code: None

( All Prismatic Cell LG Chem. manufactured and whose capacity is less than 20Wh, And All Prismatic pack capacity is less than 100Wh)

1. Company Identification

Manufacturer

LG Chemical Ltd.

Twin Tower

Youido-Dong 120, Youngdeungpo-Ku

Seoul, Korea

Emergency Telephone Number

82-2-3773-7387

2. Composition Information

<table>

3. Hazards Identification

Primary routes of entry

Skin contact : NO

Skin absorption : NO

Eye contact : NO

Inhalation : NO

Ingestion : NO

Emergency Overview

May explode in a fire, which could release hydrogen fluoride gas.
Use extinguishing media suitable for materials burning in fire.

* Not every product includes all of these materials.
Skin contact

No effect under routine handling and use.

Skin absorption

No effect under routine handling and use.

Eye contact

No effect under routine handling and use.

Inhalation

No effect under routine handling and use.

Reported as carcinogen

Not applicable

4. First Aid Measures

Inhalation

Not a health hazard.
Eye contact

Not a health hazard.

Skin contact

Not a health hazard.

Ingestion

If swallowed, obtain medical attention immediately.

**IF EXPOSURE TO INTERNAL MATERIALS WITHIN CELL DUE TO DAMAGED OUTER CASING, THE FOLLOWING ACTIONS ARE RECOMMENDED:**

Inhalation

Leave area immediately and seek medical attention.

Eye contact

Rinse eyes with water for 15 minutes and seek medical attention.
Skin contact

Wash area thoroughly with soap and water and seek medical attention.

Ingestion

Drink milk/water and induce vomiting; seek medical attention.

5. Fire Fighting Measures

General Hazard

Cell is not flammable. Combustion products include, but are not limited to hydrogen fluoride, carbon monoxide and carbon dioxide.

Extinguishing Media

Use extinguishing media suitable for the materials that are burning.

Special Firefighting Instructions

If possible, remove cell(s) from fire fighting area. If heated above 160°C, cell(s) may explode/vent.
Firefighting Equipment

Use NIOSH/MSHA approved full-face self-contained breathing apparatus (SCBA) with full protective gear.

6. Accidental Release Measures

On Land

Place material into suitable containers and call local fire/police department.

In Water

If possible, remove from water and call local fire/police department.

7. Handling and Storage

Handling

No special protective clothing required for handling individual cells.
Storage

Store in a cool, dry place.

8. Exposure Controls / Personal Protection

Engineering controls

Keep away from heat and open flame. Store in a cool, dry place.

Personal Protection

Respirator

Not required during normal operations. SCBA required in the event of a fire.

Eye/face protection

Not required beyond safety practices of employer.

Gloves
Not required for handling of cells.

Foot protection

Steel toed shoes recommended for large container handling.

9. Physical and Chemical Properties

10. Stability and Reactivity

Reactivity
None

**Incompatibilities**

None during normal operation. Avoid exposure to heat, open flame, and corrosives.

**Hazardous Decomposition Products**

None during normal operating conditions. If cells are opened, hydrogen fluoride and carbon monoxide may be released.

**Conditions To Avoid**

Avoid exposure to heat and open flame. Do not puncture, crush or incinerate.

**11. Toxicological Information**

This product does not elicit toxicological properties during routine handling and use.
If the cells are opened through misuse or damage, discard immediately.

Internal components of cell are irritants and sensitizers.

### 12. Ecological Information

Some materials within the cell are bio-accumulative. Under normal conditions, these materials are contained and pose no risk to persons or the surrounding environment.

### 13. Disposal Considerations

California regulated debris

RCRA Waste Code : Non-regulated
Dispose of according to all federal, state, and local regulations.

14. **Transport Information**

Lithium batteries are classified in Class 9 – Miscellaneous dangerous goods as:

- UN 3480, Lithium ion batteries
- UN 3481, Lithium ion batteries contained in equipment; or
- UN 3481, Lithium ion batteries packed with equipment.

With regard to transport of the product, the following regulations are cited and considered:

- The International Civil Aviation Organization (ICAO) Technical Instructions,
- The International Air Transport Association (IATA) Dangerous Goods Regulations
- The International Maritime Dangerous Goods (IMDG) Code,
- The UN Recommendations on the Transport of Dangerous Goods,
Manual of Tests and Criteria 38.3 Lithium batteries,

If those lithium-ion batteries are packed with or contained in an equipment, then it is the responsibility of the shipper to ensure that the consignment are packed in compliance to the 59th edition of 2018 IATA Dangerous Goods Regulations Section II of either Packing Instruction 966 or 967 in order for that consignment to be declared as NOT RESTRICTED (non-hazardous/non-Dangerous). If those lithium-ion batteries are packed with or contained in an equipment, UN No. is UN3481

Each cell or battery is of the type proven to meet the requirements of each test in the UN Manual of Tests and Criteria, Part III, subsection 38.3

15. Regulatory Information

OSHA hazard communication standard (29 CFR 1910.1200)

_____ Hazardous

✓ Non-hazardous
16. Model list of application

Refer to Table 1.
