PREMIUM PERFORMANCE & STYLE

Stylishly finished in polished aluminum, the Lenovo™ IdeaPad™ 720 combines advanced processing with premium design. Building on the IdeaPad 5 series, this powerful laptop offers faster, larger storage options and high-performance dedicated graphics for the gamer in you. And with razor-thin bezels bordering a vibrant 15" wide-angle display featuring up to FHD resolution, you'll be able to play as hard as you work. Go big.

WHY YOU SHOULD BUY THE LENOVO IDEAPAD 720

Streamlined design and premium details

The IdeaPad 720 features a redesigned chassis with polished metal surfaces and softly angled edges. Treated with the same technology used to shape and smooth diamonds, the result is sleek and streamlined.

Performance to rival a gaming machine

The IdeaPad 720 offers the powerful option of AMD Radeon™ 560 discrete graphics, giving you up to 2.5 times better performance than previous generations. A dedicated graphics card relies on its own processor, so you can play advanced games, render video, edit photos and more—without compromising processor performance or energy usage.

Lenovo™

Everything's vibrant with FHD

The IdeaPad 720 offers up to Full High-Definition clarity, on a display that stretches nearly all the way to each edge. Featuring significantly thinner borders than the IdeaPad 5 series, the 720 will make the absolute most of your entertainment. And with wide-angle IPS viewing, you'll be able to browse and watch from almost any angle. Kick-back on the couch, or gather around for a video chat with family.

Instant login with optional fingerprint reader

Log in to your laptop in less than two seconds with an optional fingerprint reader—that's 3 times faster than the average time it takes to type in a password. It's simple, safe and secure. And thanks to Windows Hello, you'll also be able to sign into partner apps like DropBox with one touch of your finger.
