THOSE™
WHO DO.

LENOVO® ASSET RECOVERY SERVICE THE ENVIRONMENTALLY RESPONSIBLE CHOICE FOR ASSET RECOVERY AND DATA DISPOSAL

Left unattended, asset disposal can easily become a costly and resource-intensive problem. Lenovo's Asset Recovery Service (ARS) helps you mitigate the environmental and data security risks associated with end-of-life asset disposal. ARS offers a single source solution for the secure, documented disposition of IT assets and data, and can be customized to address the unique needs of your organization worldwide. Our Lenovo experts will assist you in the development of a sustainable corporate disposition strategy for any technology hardware, with a range of asset disposition options, including certified and documented validation of inventory and repair.

DID YOU KNOW?

- International Data Corporation (IDC) estimates that most corporations store old PCs for up to three years at a cost of \$360/machine and then pay an additional \$218 for disposal
- The U.S. dumps between 300 and 400 million electronic items per year, accounting for 2% of America's trash in landfills, but 70% of overall toxic waste¹
- The Ponemon Institute estimates the cost of a data breach at \$202/record² due to fines, remediation expenses, reduced productivity and lost customers
 - A lost hard disk drive with 10,000 records could cost your business more than \$2 million

WHAT'S YOUR PLAN FOR OLD TECHNOLOGY ASSETS?

As a company dealing with client and personal information, you have the great responsibility to ensure data security. Maintaining security for SSNs, financial data, addresses, medical records, and trade secrets is of the highest importance. Compliance with privacy laws such as HIPPA, Sarbanes Oxley, Gramm-Leech-Bliley and others will not only instill confidence in your clients, but will also mediate your civil liability and costs.

Flexible Options to Meet the Needs of Your Organization

STANDARD ARS SERVICE	ADDITIONAL SERVICES AVAILABLE UPON REQUEST
<ul style="list-style-type: none">• Reverse logistics and packaging• Securely transport assets from client location• Processing to receive, test and prepare equipment for resale• Recycling to ensure proper disposal for obsolete equipment• DOD Certified data destruction• Client portal for easy submission of pick-up requests and tracking• Single point of contact and detailed reporting• Return value for re-marketable assets• Flat rate shipping• Onsite data destruction	<ul style="list-style-type: none">• Remote or onsite discovery to provide current inventory with value assessment• Dismantle and move assets to onsite pickup area• Quarantine hold of assets for specified period to ensure data migration• Refurbishment to prepare assets for redeployment, donation, lease return, or employee sale• Guaranteed value up to 3 years

WHAT LENOVO ARS COVERS

Any brand of technology hardware.
